

March 15, 2013

**NOTICE OF PUBLIC HEARING
AND
NOTICE OF INTENT TO ADOPT A NEGATIVE DECLARATION
FOR
THE ORDINANCE PROHIBITING FOOD VENDORS FROM USING
POLYSTYRENE BASED DISPOSABLE FOOD CONTAINERS**

NOTICE IS HEREBY GIVEN that the City of San Mateo has prepared an Initial Study/Negative Declaration, which identifies and discusses potential environmental impacts of the project and, if necessary, proposes mitigation measures to be incorporated in the project to eliminate any potentially significant impacts, for the following project.

**CITYWIDE ORDINANCE: ORDINANCE PROHIBITING FOOD VENDORS FROM USING
POLYSTYRENE BASED DISPOSABLE FOOD CONTAINERS**

PROJECT SUMMARY:

The City of San Mateo is proposing the adoption of a new ordinance that would prohibit food vendors from using polystyrene based disposable food service ware (polystyrene food containers). This ordinance is the same ordinance drafted and adopted by San Mateo County which became effective July 1, 2011.

Polystyrene is a petroleum-based lightweight plastic material that can be formed into many different products. It is often referred to by the trademark name "Styrofoam". Polystyrene is used as a disposable, single-use food service container, also referred to as food service ware, which comes in many forms such as plates, cups, bowls, trays and lidded containers, known as clamshells. Polystyrene is frequently used by restaurants and food establishments as containers for take-out food orders or to bring home leftover food after dining. In some cases polystyrene may be used as the primary serving mechanism or food ware, rather than ceramic or plastic reusable alternatives, for the more casual eateries and fast food establishments.

The proposed Ordinance would prohibit restaurants and other food establishments (food vendors) within the City of San Mateo from using polystyrene plates, cups, bowls, trays and lidded containers. The Ordinance would exempt straws, utensils and cup lids, disposable packaging for unprepared foods and prepackaged foods. Prepackaged food is defined as food processed and packaged off-site to prevent any direct human contact with the food product upon distribution from the manufacturer. In addition, polystyrene coolers and ice chests intended for reuse would also be exempted from the Ordinance. The Ordinance would apply to all food vendors within the City of San Mateo and would be enforced by the San Mateo County Environmental

Health Department as part of their ongoing inspection of food establishments throughout the County. A food vendor is defined as any vendor, business, organization, entity, group or individual, including licensed retail food establishments, that provides prepared food at a retail level. This includes all types of food establishments, full service restaurants as well as fast food restaurants.

Requested Applications:

- A. Proposed adoption of a new City Ordinance
- B. Initial Study & Negative Declaration to assess potential environmental impact

Project Manager: Kenneth Chin, Project Manager
330 W. 20th Avenue
San Mateo, CA 94403
kchin@cityofsanmateo.org
(650) 522-7313

Project Applicant: City of San Mateo
330 W. 20th Avenue
San Mateo CA 94403

AVAILABILITY OF NEGATIVE DECLARATION AND INITIAL STUDY:

The application requires the preparation of an environmental impact assessment under the provisions of the California Environmental Quality Act (CEQA). Copies of the Initial Study/Negative Declaration are available at City Hall (330 West 20th Ave.), at the City's Main Library (55 West 3rd Ave, Reference Desk). It is also available online on the City's website at www.cityofsanmateo.org/index.aspx?nid=2540.

PUBLIC COMMENT OF ENVIRONMENTAL REVIEW DOCUMENT:

The public review period for the Draft Negative Declaration starts on **March 15, 2013 and extends to April 3, 2013** (20 day public review period). Please submit all written comments on the Draft Negative Declaration to Kenneth Chin, Project Manager, City of San Mateo Public Works Department, 330 West 20th Avenue, San Mateo, CA, 94403. If you have questions, please call Kenneth Chin at (650) 522-7313. If any person challenges this item in court, that person may be limited to raising only those issues the person in written correspondence delivered at, or prior to, the public hearings.

PUBLIC HEARING:

After the conclusion of the public review for the environmental document, the City Council will hold a public hearing to review this ordinance. The City Council public hearing is scheduled for **April 15, 2013 at 7:00 p.m.** in the City Council Chambers at City Hall, 330 W. 20th Avenue, San Mateo, California.

The requested City Council approvals include:

- A. Adopt a Resolution approving the Initial Study and Mitigated Negative Declaration for the Ordinance Prohibiting Food Vendors from Using Polystyrene Based Disposable Food Containers
- B. Introduction of an Ordinance Prohibiting Food Vendors from Using Polystyrene Based Disposable Food Containers

If any person challenges this item in court, that person may be limited to raising only those issues the person or someone else raised at the public hearing described in this notice, or in written correspondence delivered at, or prior to, the public hearings.

AMERICANS WITH DISABILITIES ACT — In compliance with the Americans with Disabilities Act, those requiring accommodation for this meeting should notify the City Clerk 48 hours prior to the meeting at (650) 522-7041.

CITY OF SAN MATEO

Negative Declaration

Pursuant to Section 21000 et seq of the Public Resources Code and the City of San Mateo Environmental Review Guidelines and Procedures, a Negative Declaration is hereby granted for the following project:

Project Title and Number: Ordinance Prohibiting Food Vendors from Using Polystyrene Based Disposable Food Containers

Lead Agency Name and Address: City of San Mateo, Public Works Department

Contact Person and Phone Number: Stephen Scott, Zoning Administrator
Phone: (650)522-7207
Email: sscott@cityofsanmateo.org

Project Location and APN: Citywide

Project Sponsor's Name & Address: City of San Mateo
330 W. 20th Avenue
San Mateo, CA 94403

General Plan Designation: Citywide

Zoning: Citywide

Description of Project: The City of San Mateo is proposing the adoption of a new Ordinance that would prohibit food vendors from using polystyrene based disposable food service ware (polystyrene food containers). This ordinance is effectively the same ordinance drafted and adopted by San Mateo County which became effective July 1, 2011.

Surrounding Land Uses and Setting: Citywide

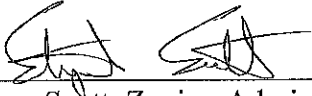

Requested Applications: Ordinance Adoption

Other public agencies whose approval is required: None

Finding: Based on the attached Initial Study and the testimony received at a duly noticed public hearing, a Negative Declaration is granted, based on the judgment that:

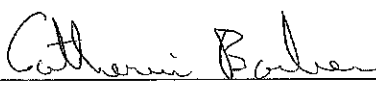

The project will not have a significant effect on the environment.

_____ The significant effects of the project noted in the Initial Study attached have been mitigated by modifications in the project, or by imposition of required mitigation measures listed in the Initial Study, so that the potential adverse effects are reduced to a point where no significant effects would occur.

Stephen Scott, Zoning Administrator

CITY OF SAN MATEO

Initial Study

1. **Project Title:** Ordinance Prohibiting Food Vendors from Using Polystyrene Based Disposable Food Containers
2. **Lead Agency Name and Address:** City of San Mateo, Planning Division
0330 W. 20th Avenue
San Mateo, CA 94403
3. **Contact Person and Phone Number:** Stephen Scott, Zoning Administrator
Phone: (650) 522-7207
Email: sscott@cityofsanmateo.org
4. **Project Location:** Citywide- See Location Map.
The City of San Mateo is located in San Mateo County, California. San Mateo is 15.7 square miles in size and is located approximately 15 miles south of San Francisco. The City of San Mateo is bordered by the City of Burlingame to the north, the City of Belmont to the south, the City of Foster City to the east, and the Town of Hillsborough and unincorporated portions of San Mateo County to the west.

5. Description of Project:

The City of San Mateo is proposing the adoption of a new Ordinance (included in Appendix A) that would prohibit food vendors from using polystyrene based disposable food service ware (polystyrene food containers). This ordinance is effectively the same ordinance drafted and adopted by San Mateo County which became effective July 1, 2011.

Polystyrene is a petroleum-based lightweight plastic material that can be formed into many different products. It is often referred to by the trademark name "Styrofoam." Polystyrene is used as a disposable, single-use food service container, also referred to as food service ware, which comes in many forms such as plates, cups, bowls, trays and lidded containers, known as clamshells. Polystyrene is frequently used by restaurants and food establishments as containers for take-out food orders or to bring home leftover food after dining. In some cases polystyrene may be used as the primary serving mechanism or food ware, rather than ceramic or plastic reusable alternatives, for the more casual eateries and fast food establishments.

The proposed Ordinance would prohibit restaurants and other food establishments (food vendors) within the City of San Mateo from using polystyrene plates, cups, bowls, trays and lidded containers. The Ordinance would exempt straws, utensils and cup lids, disposable packaging for unprepared foods and prepackaged foods. Prepackaged food is defined as food processed and packaged off-site to prevent any direct human contact with the food product upon distribution from the manufacturer. In addition, polystyrene coolers and ice chests intended for reuse would also be exempted from the Ordinance. The Ordinance would apply to all food vendors within the City of San Mateo and would be enforced by the San Mateo County Environmental Health Department as part of their ongoing inspection of food establishments throughout the County. A food vendor is defined as any vendor, business, organization, entity, group or individual, including licensed retail food establishments, that provides prepared food at a retail level. This includes all types of food establishments, full service restaurants as well as fast food restaurants.

Polystyrene has become a problematic environmental pollutant because it is non-biodegradable and virtually non-reusable. San Mateo County Environmental Health Division estimates that there are 2,696 food vendor businesses (from fast-food to full seating restaurants and markets that sell food within the entire County area, see Appendix B for additional information).¹ With a population of 97,207 people², there are approximately 604 food vendors³ located directly within the City of San Mateo that would be subject to the terms of the new ordinance. Of these, the smaller restaurants tend to use disposable food ware exclusively. The City of San Mateo has already begun reaching out to the business community to explain the purpose of the polystyrene ban, and in doing so found that many of the City's businesses are already in the practice of using more environmentally friendly packaging such as recycled food service ware consisting of compostable materials from renewable sources such as paper fiber, cardboard, corn or potato starch. The larger restaurants typically use disposable food ware for take-out orders only, but not polystyrene.

The San Mateo County Health Division determined that non-biodegradable containers (polystyrene), constitute a large portion of the County's litter, found in parks, public places, along roads and highways and in waterways. The Monterey Bay National Marine Sanctuary (MBNMS), which extends to include the entire San Mateo County coastline, indicates that "foamed polystyrene is of particular concern because it is light, it floats, and is highly visible... Polystyrene foam pieces, which look like food to many species, is frequently ingested by wildlife and results in choking, reduced appetite, reduced nutrient absorption, and starvation."⁴ The MBNMS has identified over 200 species of plants and animals considered "special status species" occurring in Sanctuary waters. According to a study implemented by the California Coastal Commission and the Algalita Research Foundation, 60 to 80 percent of all marine debris and 90 percent of floating debris is plastic material which includes polystyrene foam.⁵ Save the Bay, a nonprofit organization dedicated to preserving San Francisco Bay and its surrounding estuaries, reports that "polystyrene foam is the second most abundant form of beach debris in California and poses a risk to human health, Bay wildlife, and wetland habitat."⁶

³ San Mateo County Environmental Health Records

⁴ San Mateo County Negative Declaration for Ordinance Prohibiting Food Vendors From Using Polystyrene-Based Disposable Food Containers

⁵ San Mateo County Negative Declaration for Ordinance Prohibiting Food Vendors From Using Polystyrene-Based Disposable Food Containers

⁶ <http://www.savesfbay.org/about-campaign>

The purpose of the ordinance prohibiting food vendors from using polystyrene food service ware is to reduce solid waste and decrease litter. Because polystyrene is non-biodegradable, it constitutes a large portion of accumulated litter. Due to the harmful effects of polystyrene, the City of San Mateo is joining San Mateo County and several other San Mateo County jurisdictions in a regional polystyrene ban. The proposed Ordinance is intended to serve as a tool to reduce the negative environmental impacts of polystyrene food containers while promoting the use of reusable or recyclable food service ware. The City's adoption of this Ordinance will not conflict with any other applicable land use plan, policy, or regulation and will not conflict with any applicable habitat conservation or natural community conservation plans. The use of non-polystyrene food containers over polystyrene food containers does not involve land use considerations that affect the planning/zoning process. If adopted by the City Council, the effective date would be six months from the date of adoption of the proposed Ordinance so that vendors that have not already made the switch to non-polystyrene containers will have time to use up their stock of polystyrene containers before enforcement begins.

6. Other public agencies whose approval is required:

None

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors below have been analyzed in terms of affect by this Project. As indicated by the checklist on the following pages, all impacts have been determined to be a "less than significant impact" or "no impact".

- | | | |
|---|---|---|
| <input type="checkbox"/> Aesthetics | <input type="checkbox"/> Agriculture and Forest Resources | <input type="checkbox"/> Air Quality |
| <input type="checkbox"/> Biological Resources | <input type="checkbox"/> Cultural Resources | <input type="checkbox"/> Geology / Soils |
| <input type="checkbox"/> Greenhouse Gas Emissions | <input type="checkbox"/> Hazards & Hazardous Materials | <input type="checkbox"/> Hydrology / Water Quality |
| <input type="checkbox"/> Land Use / Planning | <input type="checkbox"/> Mineral Resources | <input type="checkbox"/> Noise |
| <input type="checkbox"/> Population / Housing | <input type="checkbox"/> Public Services | <input type="checkbox"/> Recreation |
| <input type="checkbox"/> Transportation / Traffic | <input type="checkbox"/> Utilities / Service Systems | <input type="checkbox"/> Mandatory Findings of Significance |

DETERMINATION:

On the basis of this initial evaluation:

- I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
- I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.
- I find that the proposed project MAY have a "potentially significant" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.
- I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

City of San Mateo- Initial Study-Polystyrene Ordinance*

EVALUATION OF ENVIRONMENTAL IMPACTS:

DISCUSSION OF ENVIRONMENTAL EVALUATION

Items identified in each section of the environmental checklist below are discussed following that section. Required mitigation measures are identified (if applicable) where necessary to reduce a projected impact to a level that is determined to be less than significant. The General Plan Environmental Impact Report (State Clearinghouse number 89100308) is hereby incorporated herein by reference in accordance with Section 15150 of the *CEQA Guidelines*. Copies of this document and all other documents referenced herein are available for review at the City of San Mateo Planning Division, 330 W. 20th Avenue, San Mateo.

The following sources are referenced in the Initial Study Checklist, and are hereby incorporated by reference into this document. While these documents are not attached with the circulated Initial Study, all referenced documents are available for review at the City of San Mateo Planning Division.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
1. AESTHETICS. Would the project:					
a) Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,22,23
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a State scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,22,23
c) Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,22,23
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,22,23

DISCUSSION OF EVALUATION – AESTHETICS:

1(a-d)(No Impact)

The proposed ordinance to prohibit the use of polystyrene food service ware by food vendors within the City of San Mateo would have no direct impact on scenic vistas or scenic resources. The proposed Ordinance only bans the use of polystyrene food service ware at food vendor locations within the City of San Mateo. The Ordinance would not physically alter any site and therefore would not degrade the existing visual character or quality of any site within San Mateo. The proposed ordinance could in fact result in less polystyrene litter and may result in improvements to the visual character of the City.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
2. AGRICULTURE AND FOREST RESOURCES.					
In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the State's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment project; and forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board. -- Would the project:					
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g))?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
d) Result in the loss of forest land or conversion of forest land to non-forest use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23

DISCUSSION OF EVALUATION –AGRICULTURAL AND FOREST RESOURCES:

2(a-d)(No Impact)

The consideration of a new Ordinance that would prohibit the use of polystyrene food service ware would not involve the conversion of farmland to a non-agricultural use or result in the loss of forest land, therefore no impacts would result.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
3. AIR QUALITY. Would the project:					
a) Conflict with or obstruct implementation of the applicable air quality plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,9,18,19, 20,22,23
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	1,9,18,19, 20,22,23
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is classified as non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	1,9,18,19, 20,22,23
d) Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,9,18,19, 20,22,23
e) Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,9,18,19, 20,22,23

DISCUSSION OF EVALUATION – AIR QUALITY:

3(a)(No Impact)

The new Ordinance that would prohibit the use of polystyrene food service ware by food vendors in the City of San Mateo would not conflict with or obstruct implementation of the applicable air quality plan.

3(b,c)(Less than Significant)

The new Ordinance prohibiting the use of polystyrene food service ware, is expected to result in the ultimate use of compostable food service ware and would not violate any air quality standard. The new Ordinance would not contribute substantially to an existing or projected air quality violation and would not result in a cumulatively considerable net increase of any criteria pollutant for which the project region is classified as non-attainment under an applicable federal or State ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors).

The Bay Area Air Quality Management District (BAAQMD) (of which San Mateo County comprises approximately 10 percent of the District's total area), based on their 2005 Air Emissions Inventory, states that the total annual average emissions are generated by the following source categories: Petroleum Refining Processes, Other Industrial/Commercial Processes, Organic Compound Evaporation, Combustion, Off-Road Mobile Sources, On-Road Motor Vehicles, and Consumer Products/Dust Sources. Of the total emissions generated by those sources, San Mateo County contributed approximately 10.5 percent to the entire BAAQMD area's total emissions. Of the emission categories cited, Nitrogen Oxide (NOx) is considered a greenhouse emission (GHG). Of San Mateo County's total (66 tons per day) emissions, 95.3 percent is generated by Off-Road Mobile and On-Road Motor Vehicle Sources, which represents approximately 12 percent of the BAAQMD's total NOx emissions. While it is assumed that the manufacturing of both polystyrene and polystyrene alternative food service ware may occur outside San Mateo County, the County's total emissions from Industrial/Commercial processes (which may include the manufacture of both material types) represents only about 2.4 percent of the County's total emissions (all types). Proportionately, the County's total emissions from such sources are about 8.5 percent of the BAAQMD's total emissions for the same source.

Decomposition of organic non-polystyrene food service ware occurs when such items are disposed of in anaerobic environments, such as landfills. One byproduct of organic decomposition is methane gas, a greenhouse gas. Assuming the overall demand for food service ware remains the same, any requirement to use organic non-polystyrene food service ware, instead of polystyrene, as a result of the proposed Ordinance would arguably result in an equal amount of food service ware entering landfills as before.

The City of San Mateo's solid waste is disposed of at Ox Mountain Landfill, which is required by State regulations to monitor and control landfill gas emissions (including methane) through the use of active and passive landfill gas collection systems. In 2006, 85,325 tons of waste⁷ and 1,672 tons of alternative daily cover⁸ (ADC) was taken to Ox Mountain Landfill for disposal from the City of San Mateo. This total includes both residential and commercial waste collected from addresses within the City of San Mateo. The Ox Mountain Landfill facility has a cogeneration plant which converts the recovered landfill gas into electricity, thereby offsetting the local demand for other nonrenewable energy sources. Therefore, the landfill gases produced due to the use of non-polystyrene food service ware are controlled and managed in ways that make emission impacts less significant.

3(d,e)(No Impact)

Sensitive receptors are considered homes, medical facilities, daycare centers, schools and playgrounds. The proposed Ordinance prohibiting the use of polystyrene food service ware would not involve construction activities and would not expose sensitive receptors to substantial pollutant concentrations.

Additionally, the Ox Mountain solid waste facilities are required by state regulations to maintain Odor Impact Minimization Plans. Thus, the Ordinance will not lead to the creation of objectionable odors affecting a substantial number of people.

⁷ GHG Inventory Report, Sustainable Silicon Valley, October 2007

⁸ ADC is primarily made up of organic materials such as yard waste and crushed construction and demolition debris. ADC is used to cover the landfill as needed and at the end of each day sand is considered an alternative to dirt, which is the typical cover. ADC is included in these calculations because it decomposed in the landfill along with the disposed waste.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
4. BIOLOGICAL RESOURCES. Would the project:					
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,22,23
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23

DISCUSSION OF EVALUATION – BIOLOGICAL RESOURCES:

4(a-f)(No Impact)

The proposed Ordinance would help protect biological resources by alleviating the “smaller and smaller” cycle typically associated with non-biodegradable polystyrene litter. Furthermore, unlike polystyrene, many types of non-polystyrene food packaging does degrade over time, lessening the impacts to plants and animals. The Ordinance would not adversely affect special-status species, would not remove sensitive natural vegetation and would not adversely impact creeks or wetlands. Additionally, the proposed Ordinance would not conflict with conservation goals and policies of the General Plan relating to protection of biological and wetland resources. The proposed Ordinance would not conflict with any adopted Habitat Conservation Plan, Natural Community Conservation Plan or other approved conservation plans. Therefore, the proposed Ordinance would have no adverse impact on biological resources.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
Issues:					
5. CULTURAL RESOURCES. Would the project:					
a) Cause a substantial adverse change in the significance of a historical resource as defined in § 15064.5? (1,24)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,7,8,22,23
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to § 15064.5? (1,24)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,7,8,22,23
c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?(1,24)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,7,8,22,23
d) Disturb any human remains, including those interred outside of formal cemeteries? (1,24)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,7,8,22,23

DISCUSSION OF EVALUATION – CULTURAL RESOURCES:

5(a-d)(No Impact)

The proposed Ordinance to prohibit the use of polystyrene food service ware by food vendors would not have an impact on historical, cultural, paleontological resources or geologic features identified in the General Plan or the City of San Mateo's Historic Building Final Report.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
6. GEOLOGY AND SOILS. Would the project:					
a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury or death involving:					
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,5,11,12, 13,22,23
ii) Strong seismic ground shaking?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,5,11,12, 13,22,23
iii) Seismic-related ground failure, including liquefaction?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,5,11,12, 13,22,23
iv) Landslides?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,5,11,12, 13,22,23
b) Result in substantial soil erosion or the loss of topsoil?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,5,11,12, 13,22,23
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,5,11,12, 13,22,23
d) Be located on expansive soil, as defined in Table 18 1 B of the Uniform Building Code (1994), creating substantial risks to life or property?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,5,11,12, 13,22,23

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,5,11,12,13,22,23

DISCUSSION OF EVALUATION – GEOLOGY AND SOILS:

6(a-e)(No Impact)

The San Andreas fault lies approximately two miles west of the San Mateo City boundary, there is no recent evidence of significant ground rupturing within the City limits. There are no known active faults in San Mateo, and inactive faults that are present are older features that do not exhibit indications of recent motion. There is no reason to expect a recurrence of movement along these other fault traces.

The proposed Ordinance that would prohibit the use of polystyrene food service ware by food vendors does not involve any land use activities or actions that would change the existing level of exposure of people or structures to potential substantial adverse effects; therefore, the proposed Ordinance would have no impact on geology and/or soils.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Source Information
Issues:					
7. GREENHOUSE GAS EMISSIONS. Would the project:					
a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	8,18,19,20, 22,23
b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	8,18,19,20, 22,23

DISCUSSION OF EVALUATION – GREENHOUSE GAS EMISSIONS:

7(a)(Less Than Significant Impact)

As discussed in the Air Quality section, the City of San Mateo's solid waste is disposed of at Ox Mountain Landfill, which is required by State regulations to monitor and control landfill gas emissions (including methane) through the use of active and passive landfill gas collection systems. In 2006, 85,325 tons of waste⁹ and 1,672 tons of alternative daily cover¹⁰ (ADC) were taken to Ox Mountain Landfill. There was another 21,000 tons that were taken outside of the County for disposal for ADC use. These totals include both residential and commercial waste collected from addresses within the City of San Mateo. As discussed above in the Air Quality Section, the decomposition of organic non-polystyrene food containers occurs when such items are disposed of in anaerobic environments, such as landfills. One byproduct of organic decomposition is methane gas, a greenhouse gas. In addition, based upon the overall estimated disposal of 108,000 tons in 2006, 16,096 metric tons of CO₂ was produced as a byproduct of this waste.

However, the Ox Mountain Landfill facility has a cogeneration plant which converts the recovered landfill gas into electricity, thereby offsetting the local demand for other nonrenewable energy sources. And assuming that the overall demand for food service ware remains the same, any requirement to use organic non-polystyrene food service ware, instead of polystyrene, as a result of the proposed Ordinance would likely result in an equal amount of food service ware entering the landfill as before. Therefore, the landfill gases produced due to the use of non-polystyrene food service ware are controlled and managed in ways that make emission impacts less than significant.

⁹ GHG Inventory Report, Sustainable Silicon Valley, October 2007

¹⁰ ADC is primarily made up of organic materials such as yard waste and crushed construction and demolition debris. ADC is used to cover the landfill as needed and at the end of each day sand is considered an alternative to dirt, which is the typical cover. ADC is included in these calculations because it decomposed in the landfill along with the disposed waste.

7(b)(No Impact)

The City of San Mateo has taken several actions to reduce greenhouse gas emissions. The City has adopted a Greenhouse Gas Emissions Reduction Program, and is utilizing the corresponding monitoring tool, in conformance with *CEQA Guidelines* section 15183.5. In addition, the Greenhouse Gas Emissions Reduction Program has been designed to meet the requirements of the Bay Area Air Quality Management District's (BAAQMD) CEQA Guidelines and the corresponding criteria for a Qualified Greenhouse Gas Emissions Reduction Strategy as defined by the BAAQMD. The Program quantifies specific policies in the Sustainable Initiatives Plan and General Plan, and concludes that with the combination of the Sustainable Initiative Plan, General Plan policies, regional, and State policies and programs, the City will reach its 2020 greenhouse gas emission reduction target, as shown in the table below

City of San Mateo Greenhouse Gas Emissions Reduction Summary
Emissions Reduction Summary (Metric Tons CO2e)

	2020	2030
Business-as-usual Forecast	721,367	764,267
Emissions Reduction Target	519,384	305,707
Emissions Forecast with SIP, General Plan, Regional, and State Policies and Programs.	516,750	411,875

In addition in January 2008, the City adopted a Climate Action Plan for Operations and Facilities. This document identifies the steps needed and action plans for each City Department to reduce their carbon footprint in order to reach their 2020 goals. Therefore, the proposed Ordinance would not conflict with plans or policies related to the reduction of greenhouse gas emissions, but would in fact support the goals set forth in these documents.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
8. HAZARDS AND HAZARDOUS MATERIALS. Would the project:					
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,4,6, 22,23
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,4,6, 22,23
c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,4,6, 22,23
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,4,6, 22,23
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,4,6, 22,23
f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,4,6, 22,23
g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,4,6, 22,23
h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,4,6, 22,23

DISCUSSION OF EVALUATION –HAZARDS AND HAZARDOUS MATERIALS:

8(a-h)(No Impact)

The proposed Ordinance prohibiting the use of polystyrene food service ware would not create, emit, or otherwise expose the public or the environment to hazardous or acutely hazardous materials. As an alternative to polystyrene, food vendors are expected to utilize either reusable food ware, such as plastic or ceramic ware, or compostable materials made from renewable resources such as paper, cardboard, corn starch, potato starch, and/or sugarcane which do not contain significant quantities of hazardous or acutely hazardous materials. Most of these products (non-polystyrene foam food service ware) are made from materials “Generally Recognized As Safe” by the U.S. Food and Drug Administration.

The prohibition of polystyrene food service ware by food vendors does not directly involve any hazardous materials sites within the City of San Mateo, would not create a hazard to the public or the environment and would not result in hazardous emissions. There would be no impact on emergency response planning, emergency evacuation planning, or interference with an adopted emergency response plan or emergency evacuation plan.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
9. HYDROLOGY AND WATER QUALITY. Would the project:					
a) Violate any water quality standards or waste discharge requirements?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,10,15,16, 17,22,23
b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,10,15,16, 17,22,23
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,10,15,16, 17,22,23
d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,10,15,16, 17,22,23
e) Create or contribute runoff water which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,10,15,16, 17,22,23
f) Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,10,15,16, 17,22,23

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
g) Place housing within a 100-year flood hazard area as mapped on a Federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,10,15,16, 17,22,23
h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,10,15,16, 17,22,23
i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,10,15,16, 17,22,23
j) Expose people or structures to inundation by seiche, tsunami, or mudflow?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,10,15,16, 17,22,23

DISCUSSION OF EVALUATION – HYDROLOGY AND WATER QUALITY:

9(a-j)(No Impact)

The proposed Ordinance would prohibit the use of polystyrene food service ware, thereby reducing some amount of small permanent litter into waterways, storm drains and beaches, and potentially improving water quality. The new Ordinance would provide “reasonable protection of beneficial uses and the prevention of nuisance” in accordance with the State Water Resource Control Board’s Ocean Plan, Section II.C.1, “Floating particulates... shall not be visible” in ocean waters (at least in regards to the amount of particulates related to polystyrene containers that originated in San Mateo County).¹¹

The Ordinance would not violate any water quality standards, deplete groundwater supplies, alter existing drainage, create runoff water, or degrade water quality. By reducing the amount of polystyrene litter in local waterways, water quality may be improved. Even assuming that a food service ware replacement is utilized in lieu of polystyrene-based materials, such replacement materials would likely be more biodegradable and would not represent a longstanding pollution source.

The new Ordinance would not alter existing drainage patterns, increase runoff or physically alter any site in San Mateo. The Ordinance does not involve housing and therefore would not expose people or structures to significant risk of loss, injury or death involving flooding or to inundation by seiche, tsunami, or mudflow

¹¹ San Mateo County Negative Declaration for Ordinance Prohibiting Food Vendors From Using Polystyrene-Based Disposable Food Containers

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
10. LAND USE AND PLANNING. Would the project:					
a) Physically divide an established community?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
b) Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
c) Conflict with any applicable habitat conservation plan or natural community conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23

DISCUSSION OF EVALUATION – LAND USE AND PLANNING:

10(a-c)(No Impact)

The new Ordinance prohibiting the use of polystyrene food service ware in the City of San Mateo involves no construction, and therefore no potential to divide the community. The Ordinance is not in conflict with San Mateo’s General Plan or Zoning Ordinance. There is no adopted Habitat Conservation Plan, Natural Community Conservation Plan or other approved local, regional, or State habitat conservation plan that would be impacted by the new Ordinance prohibiting the use of polystyrene food service ware. For these reasons, the proposed Ordinance would have no impact on land use and planning.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
11. MINERAL RESOURCES. Would the project:					
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the State?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,14,22,23
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,14,22,23

DISCUSSION OF EVALUATION –MINERAL RESOURCES:

11(a,b)(No Impact)

The Project involves the adoption of a new Ordinance prohibiting the use of polystyrene food service ware within the City of San Mateo and there would be no impact on known significant mineral resources.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
12. NOISE. Would the project result in:					
a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23

DISCUSSION OF EVALUATION –NOISE:

12(a-f)(No Impact)

The proposed Ordinance prohibiting the use of polystyrene food service ware does not involve any activities or actions that would generate noise levels in excess of standards established in the local General Plan or Noise Ordinance. It would not exposure people to or generate groundborne vibration or groundborne noise levels. There would be no resulting temporary or permanent increase in ambient noise levels; therefore, the proposed Ordinance would have no impact on noise.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
13. POPULATION AND HOUSING. Would the project:					
a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of road or other infrastructure)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,3, 22,23
b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,3; 22,23
c) Displace substantial numbers of people, Necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,3, 22,23

DISCUSSION OF EVALUATION –POPULATION AND HOUSING:

13(a-c)(No Impact)

The proposed Ordinance that would prohibit the use of polystyrene food service ware does not include any construction of structures or roadways, and would not displace existing housing or people; therefore there is no impact from this Ordinance on population and/or housing.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
14. PUBLIC SERVICES. Would the project:					
a) Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:					
Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,4,6,22,23
Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,22,23
Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,22,23
Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,22,23
Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,22,23

DISCUSSION OF EVALUATION –PUBLIC SERVICES:

14(a-e)(No Impact)

The proposed Ordinance prohibiting the use of polystyrene food service ware would have no impact on public services. It would not result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services, including fire protection, police protection, schools, or parks.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Source Information
15. RECREATION. Would the project:					
a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,22,23
b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which have an adverse physical effect on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,22,23

DISCUSSION OF EVALUATION –RECREATION:

15(a,b)(No Impact)

There would be no increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated as a result of the proposed Ordinance to prohibit the use of polystyrene food service ware by food vendors within the City of San Mateo. The Ordinance may have a beneficial effect by reducing the amount of polystyrene litter in parks. The new Ordinance does not involve recreational facilities, and would have no impact on recreational facilities within the City of San Mateo.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
16. TRANSPORTATION / TRAFFIC. Would the project:					
a) Conflict with an applicable plan, ordinance or policy establishing measures of effectiveness for the performance of the circulation system, taking into account all modes of transportation including mass transit and non-motorized travel and relevant components of the circulation system, including but not limited to intersections, streets, highways and freeways, pedestrian and bicycle paths, and mass transit?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,20, 22,23
b) Conflict with an applicable congestion management program, including, but not limited to level of service standards and travel demand measures, or other standards established by the county congestion management agency for designated roads or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,20, 22,23
c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,20, 22,23
d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,20, 22,23
e) Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,20, 22,23
f) Conflict with adopted policies, plans, or programs regarding public transit, bicycle, or pedestrian facilities, or otherwise decrease the performance or safety of such facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,20, 22,23

DISCUSSION OF EVALUATION –TRANSPORTATION/TRAFFIC:

16(a-f)(No Impact)

The Ordinance prohibiting the use of polystyrene food service ware does not involve any land use activities or actions that would change existing traffic levels or patterns. There would be no new or existing roads, and no impacts on the adequacy of emergency access; therefore the new Ordinance would have no impact transportation and/or traffic.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
Issues:					
17. UTILITIES AND SERVICE SYSTEMS.					
Would the project:					
a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,16,17 22,23
d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed? In making this determination, the City shall consider whether the project is subject to the water supply assessment requirements of Water Code Section 10910, et. seq. (SB 610), and the requirements of Government Code Section 664737 (SB 221).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
e) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
f) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23
g) Comply with Federal, State, and local statutes and regulations related to solid waste?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1,2,22,23

DISCUSSION OF EVALUATION –UTILITIES AND SERVICE SYSTEMS:

17(a-g)(No Impact)

The new Ordinance would ultimately result in food vendors within the City of San Mateo replacing polystyrene food service ware with products that are biodegradable and can be recycled locally. The Ordinance may result in a reduction in the total amount of food packaging that ultimately reaches the Ox Mountain Landfill facility. Ox Mountain Landfill is where all residential and commercial waste collected from addresses with the City of San Mateo is taken by Recology, the company that provides solid waste disposal service to the City of San Mateo. There would still be waste generated by disposable, non-polystyrene food service ware. However, compostable containers in landfills would degrade more quickly over time and would take up less space.

Furthermore, it is expected that the prohibition of polystyrene food service ware would result in less polystyrene ending up in storm drains, along streets, highways, freeways, schools, and parks in the form of non-biodegradable litter. In some cases, wastewater treatment and storm water drainage facilities may see improvements in current operations and a reduction in the amount of non-biodegradable polystyrene food service ware that are found in their systems.

Assuming the overall demand for food service ware remains level, any requirement to use organic non-polystyrene food service ware, over polystyrene, would arguably result in an equal amount of new organic food service ware entering landfills. Furthermore, by replacing polystyrene with products that would biodegrade or can be recycled locally; or indirectly by the encouragement of vendor-reusable alternatives to the extent disposable foodware is currently in use by eat-in food establishments in the City, it would likely result in a reduction in the total amount of food containers that ultimately reach landfills.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact	Supporting Information Sources
18. MANDATORY FINDINGS OF SIGNIFICANCE					
a) Does the Project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species; cause a fish or wildlife population to drop below self-sustaining levels; threaten to eliminate a plant or animal community; substantially reduce the number or restrict the range of an endangered, rare or threatened species; or eliminate important examples of the major periods of California history or prehistory?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1-23
b) Does the project have the potential to achieve short-term environmental goals to the disadvantage of long-term environmental goals?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1-23
c) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1-23
d) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	1-23

DISCUSSION OF EVALUATION –MANDATORY FINDINGS OF SIGNIFICANCE:

17(a-d)(No Impact)

This evaluation assumes that the new Ordinance prohibiting the use of polystyrene food service ware would trigger a similar amount of alternative (reusable/disposable-compostable) containers for use by

food vendors in the City of San Mateo. Therefore, as the usage of polystyrene food service ware falls among food vendors in San Mateo, the demand for and usage of reusable and/or compostable food service ware would rise in its place, likely by an equal amount. Assuming the overall demand for food service ware remains level, any requirement to use non-polystyrene food service ware in place of polystyrene food service ware would likely be positive for the environment.

ATTACHMENTS:

Attachment A: City of San Mateo, Draft Ordinance Prohibiting Food Vendors from Using Polystyrene Based Disposable Food Containers

Attachment B: Spreadsheet with Food Facilities in the City of San Mateo; San Mateo County Environmental Health, February 27, 2013

DRAFT**CITY OF SAN MATEO****POLYSTYRENE BASED DISPOSABLE FOOD SERVICE WARE ORDINANCE**

DEFINITIONS. For the purposes of this chapter, the following terms have the following meanings:

- (a) **“Disposable food service ware”** means single-use disposable products used in the restaurant and food service industry for serving or transporting prepared, ready-to-consume food or beverages. This includes but is not limited to plates, cups, bowls, trays and hinged or lidded containers, also known as clamshells. This does not include straws, utensils, or cup lids nor does it include disposable packaging for unprepared foods.
- (b) **“Food vendor”** means any vendor, business, organization, entity, group or individual, including a licensed retail food establishment that provides prepared food at a retail level.
- (c) **“Polystyrene-based”** means and includes expanded polystyrene, which is a thermoplastic petrochemical material utilizing a styrene monomer and process by any number of techniques including, but not limited to fusion of polymer spheres (expandable bead polystyrene), injection molding, form molding, and extrusion-blow molding (extruded foam polystyrene).
- (d) **“Prepackaged food”** means any properly labeled processed food, prepackaged to prevent any direct human contact with the food product upon distribution from the manufacturer, and prepared at an approved source.
- (e) **“Prepared food”** means food or beverages, which are serviced, packaged, cooked, chopped, sliced, mixed, brewed, frozen, squeezed, or otherwise prepared. Prepared food does not include eggs, fish, meat, poultry, and foods containing these raw animal foods requiring cooking by the consumer as recommended by the Food and Drug Administration.

PROHIBITED USE OF POLYSTYRENE-BASED DISPOSABLE FOOD SERVICE WARE.

No vendor shall use polystyrene-based disposable food service ware when providing prepared food.

EXEMPTIONS.

- (a) Automatic Exemptions. The following uses are exempt from the provisions of this chapter:
 - 1) Prepackaged food.
 - 2) Polystyrene coolers and ice chests intended for reuse.
- (b) Special Requests for an Exemption. Any food vendor may seek an exemption from the requirements of this chapter upon demonstrating that strict application of the requirements would cause undue hardship.
 - 1) An “undue hardship” shall be found in:
 - aa) Situations unique to the food vendor where a suitable alternative does not exist for a specific application;
 - bb) Situations where no reasonable feasible available alternative exists to a specific and necessary container prohibited by this chapter.
 - 2) The application process for exemption shall be as follows:
 - aa) The food vendor seeking an exemption shall submit a written exemption request to the Director of Public Works or his /her designee.

- bb) A written exemption request shall include all information and documentation necessary for the Director of Public Works or his /her designee to make a finding that imposition of this chapter would cause an undue hardship as defined above.
 - cc) The Director of Public Works or his /her designee may require the applicant to provide additional information in order to make a determination regarding the exemption application.
 - dd) Exemption decisions are effective immediately and are final and not subject to appeal.
 - ee) The Director of Public Works or his /her designee may grant an exemption for a period of up to one year upon a finding that the food vendor seeking the exemption has demonstrated that strict application of the specific requirement would cause undue hardship as defined above.
- 3) If a food vendor granted an exemption wishes to have the exemption extended, it must re-apply for the exemption prior to the expiration of the one-year exemption period and demonstrate continued undue hardship. Extensions may be granted for intervals not to exceed one year.

SEVERABILITY. In the event any section, clause or provision of this Chapter shall be determined invalid or unconstitutional, such section, clause or provision shall be deemed severable and all other sections or portions hereof shall remain in full force and effect.

ENFORCEMENT. Any violation of this Chapter is unlawful.

COUNTY ENFORCEMENT . The Environmental Health Division of the County of San Mateo is hereby authorized to enforce this Chapter upon execution of an agreement with the City.

- a) County Administrative Fine and County Procedures.
 - 1) Grounds for Fine. A fine may be imposed upon findings made by the Director of the Environmental Health Division, or his or her designee, that any food vendor has used polystyrene-based disposable food service ware in violation of this Chapter.
 - 2) Amount of Fine. Upon finding made under subsection 1), the food vendor shall be subject to an administrative fine as follows:
 - aa. A fine not exceeding one hundred dollars (\$100) for a first violation;
 - bb. A fine not exceeding two hundred dollars (\$200) for a second violation
 - cc. A fine not exceeding five hundred dollars(\$500) for the third and subsequent violations;
 - dd. Each day that a food vendor uses polystyrene-based disposable food service ware when providing prepared food shall constitute a separate violation.
 - 3) Fine Procedures. Notice of the fine shall be served on the food vendor. The notice shall contain an advisement of the right to request a hearing before the Director of the Environmental Health Division or his or her designee contesting the imposition of the fine. The grounds for the contest shall be either that (1) the food vendor did not use polystyrene-based disposable food service ware when providing prepared food or (2) the food vendor would have been granted an exemption of this ordinance if the food vendor had applied for such exemption. Said hearing must requested within ten days of the date appearing on the notice of the fine. The decision of the Director of the Environmental Health Division shall be based upon a finding that one of the above listed grounds for a contest have been met and shall be a final administrative order, with no administrative right of appeal.

- 4) Failure to Pay Fine. If said fine is not paid within 30 days from the date appearing on the notice of the fine or of the notice of determination of the Director of the Environmental Health Division or his or her designee after the hearing, the fine shall be referred to a collection agency.
