PROJECT PLAN BASEMENT LIGHTING LAYOUT - PHOTOMETRIC ANALYSIS

SCALE: 3'-0" = 1'-0"

Please note that the Delano brand (LLF) was used for calculations to answer an additional energy savings request by the client. Delano manufactures (LLF) for auto-select installations. LLF for high-pressure sodium and Induction lamps. LLF for Ballast and LED, as well as LLF for Inverter and LED Panels.
PROJECT PLAN LEVEL 1 LIGHTING LAYOUT - PHOTOOMETRIC ANALYSIS

NOTE FOR REFERENCE: All lighting fixtures in this drawing have been identified with the appropriate fixture symbols. This drawing includes the photometric design for a 24/7 facility with fixture layouts and electrical layouts.

PRELIMINARY NOT FOR CONSTRUCTION
