- Communications and Outreach

Residential Parking Permit Program

1. Permits – Quantity and Types

Currently

- Residents have **permit stickers** for each registered vehicle
- One **“hangtag” visitor permit** per household
- Residents request a permit for **any vehicle registered to their household**
- Resident permits are **unlimited**

Share your thoughts: place a sticker next to an option

How many permits are reasonable per household?

3

4

5

Unlimited

How many visitor permits are needed?

1

2

3+

Are one-day visitor permits useful?

Yes

No

Residential Parking Permit Program

2. Enforcement – Days and Hours

Currently

- Parking restrictions **Monday through Saturday** in most zones
- Restricted hours **8 am to 6 pm**

Share your thoughts: place a sticker where you agree

What days of the week are most needed?

Monday – Friday

Monday – Saturday

Everyday

What hours is enforcement needed?

8a-5p

8a-6p

9a-6p

Residential Parking Permit Program

3. Pricing

Currently

- Permits are **free of charge** to any resident
- Households may request **one free visitor permit**

Residential parking is a costly program to offer and maintain. To partially offset the operating costs for the program, **what is a reasonable price you are willing to pay annually for a resident permit?**

\$20-40

\$41-60

\$61-80

\$81 or more

Should each permit **cost the same?**

Yes

No, each additional permit should cost more.

Residential Parking Permit Program

4. Program Implementation

Currently

- Residents self-organize and **submit a written petition**
- City hosts a **neighborhood meeting** and **mails survey**
- Neighborhood must identify a **parking generator**
- **67% of residents** must approve program

Should the City require a parking study before approving a program?

Yes

No

What should be considered a parking generator?

School

Park

Multi-family housing

Used Vehicle Sales

Commercial Businesses

Other?

How many residents should approve program?

50%

67%

75%
