

Additional Resources for Distance Learning Students

This list is designed to help students find additional home-based resources for completing or supplementing schoolwork. We've tried to compile as many on-going offerings nationally available. Please double check with the content owner (author, publisher, organizations list below) for updates on times, links etc.

Check out Bound to Stay Bound Bookstore's compiled list of [resources](#).

[Khan Academy SAT Prep](#) – College Board partnered with Khan Academy to provide free SAT prep and practice tests.

[Scholastic Learn at home](#)- Provides students with 20 days' worth of three-hour learning opportunities, designed to limit the need printing and allow students to learn independently with their families.

[Smithsonian Learning Lab](#): Caregivers, teachers, and students will find distance learning resources and access to the Smithsonian's vast online collections.

[Start your own business](#) - TeenBusiness includes bunches of stories of successful teen entrepreneurs, questions, and resources to help get you started building your own business.

[KQED at home learning](#) - KQED provided, free corresponding digital learning media and activities for at-home learning. Learn At Home educational resources are made possible through an unprecedented collaboration between KQED and PBS SoCal/KCET in Southern California.

[Guide for K-12 Online Learning](#) – Locally created resource includes multiple suggestions for each grade level as well as some resources for adults and educators. Each recommendation includes a one-page visual sample of lessons.

[Sporcle](#) – Thousands and thousands of quizzes on every subject. Recommended by the San Mateo Union High School District superintendent.

[Crash Course](#)- Free educational videos geared to high schoolers. Courses cover content from Astronomy to US History and even features some AP high school curriculum topics!

[World Book](#) - Is offering free access to teachers and parents through April 30. They've created a distance-learning resource page with activities. Parents and teachers can use this [link](#) to sign up for remote access.
