Flood Zone Update

## DEAR PROPERTY OWNERS,

City of San Mateo Public Works staff has secured the necessary easements for the construction of the North Shoreview Flood Zone Project, and obtained the Conditional Letter of Map Revision (CLOMR) from Federal Emergency Management Agency (FEMA). This letter provides assurance that upon project completion, properties will be removed from the FEMA flood map.

The City has also submitted its final response to the San Francisco Bay Conservation and Development Commission (BCDC) to fulfill its requirements.

Project planners are now working on bidding and awarding the construction contract by early 2020. The project will take two years to build.

The Benefit Assessment District is currently scheduled to begin implementation in July 2020. Public Works staff will be returning to San Mateo City Council in spring 2020 to delay implementation until July 2022 to align with this project's completion.

Thank you for your continued patience as we ensure this important upgrade to our city's infrastructure.
