

NOTICE OF CONSTRUCTION

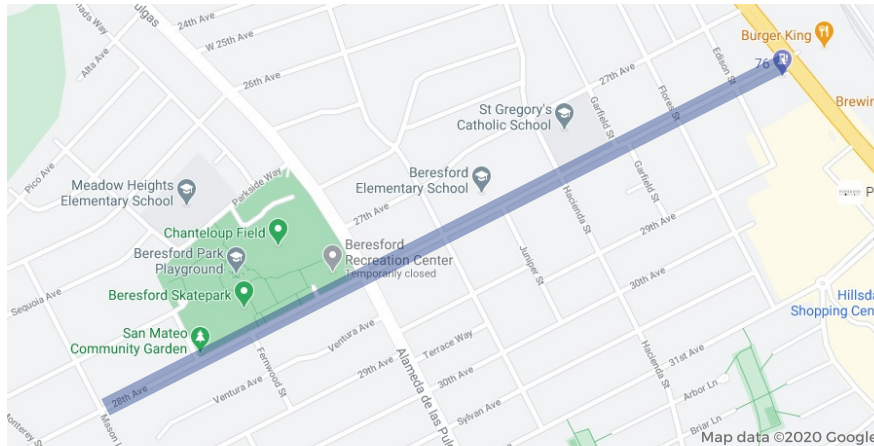

October 5, 2020

A safety improvement project will start near you soon.

On Sept. 21, 2020, San Mateo City Council awarded a contract to Golden Bay Construction, Inc. to implement the 28th Avenue Bike Boulevard, our City's first.

Bike Boulevards aim to slow vehicle speeds using street elements like speed cushions and curb extensions to provide a comfortable environment for bicyclists on the roadway. They serve to connect bicyclists and other types of micro-mobility to transit hubs, downtown, employment centers, and recreation areas.

ANTICIPATED SCHEDULE:

Work begins in late October 2020 and will be in stages until February 2021.

CONSTRUCTION HOURS:

8 a.m. – 5 p.m., Monday to Friday.

Please take note when 'no parking' signs are in your neighborhood. Contractor has authority to tow vehicles where 'no parking' signs exist.

NOTICE OF CONSTRUCTION

An improvement project in your neighborhood has been approved by City Council and the construction will begin soon. *See the reverse of this card for details on your neighborhood's upcoming improvements.*

The City of San Mateo Public Works Department ensures your infrastructure is efficient and sustainable for generations to come. Below are just some of the types of projects Public Works prioritizes:

ROAD IMPROVEMENT

The maintenance and repair of our city's network of roads improves the quality of life for our residents and their visitors. These projects can be pavement reconstruction, slurry seal or roadway rebuilding.

TRAFFIC FLOW IMPROVEMENT

Traffic flow is an essential element to safety in our communities. These projects can include dedicated turn lanes, intersection redesign, speed bumps installation or a new traffic signal.

ACCESSIBILITY FOR ALL

The accessibility of our neighborhoods for all improves the health of our city for every citizen. These projects can include new or enhanced bike paths, sidewalks redesign, park trails and crosswalk improvements.

STORMWATER MANAGEMENT

To decrease polluted stormwater flows into the San Francisco Bay, we work on flood zone improvements and Green Infrastructure design to ensure a healthy environment for all.
